

Richard Storyboard

Richard wants to reheat some pizza for 30 seconds. He wants to use a microwave to reheat the pizza.

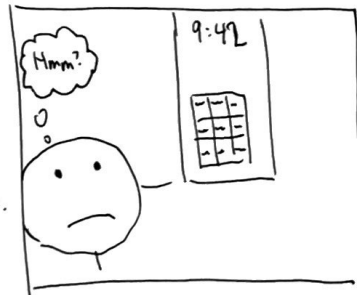

Richard puts the pizza in the microwave. He presses the number "3".

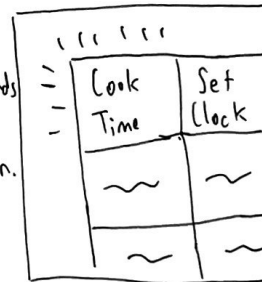

Suddenly, the microwave is set for 3 minutes! Richard gets confused and cancels the 3 minutes on the microwave.

Richard examines the microwave, ~~not~~ looking if he needs to press a specific button.

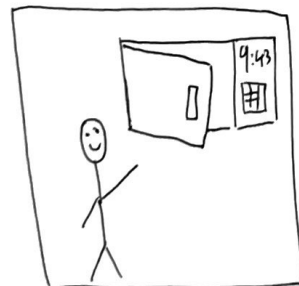

Aha! Richard finds the "Cook Time" button.

Richard presses the "Cook Time" button and sets the microwave for 30 seconds.

After 30 seconds, Richard pulls the handle to open the microwave.

Now, Richard can enjoy his reheated pizza! Yay!
